## EDUCATION

---

### University of Arkansas

*Master's in Computer Science*

- **Current GPA:** 4.0

Fayetteville, Arkansas, USA

*Expected Graduation, May. 2027*

### University of Information Technology, VNU-HCM

*Bachelor of Science in Computer Science*

Ho Chi Minh City, VietNam

*Sep. 2021 – May. 2025*

## RESEARCH INTERESTS

---

My research focuses on vision-language models, particularly on understanding and shaping their internal representations through post-training adaptation methods such as activation steering. I am also interested in uncertainty quantification, including conformal prediction and Laplace approximation, for reliable VLA models.

## PUBLICATIONS

---

1. **DualCount: Structurally Consistent Density and Point Modeling for Zero-Shot Object Counting**  
*Ngo Xuan Cuong*  
European Conference on Computer Vision (**ECCV 2026**)  
**Keywords:** Zero-shot object counting, density estimation, cross-representation consistency.
2. **SemLT3D: Semantic-Guided Expert Distillation for Camera-Only Long-Tailed 3D Object Detection**  
*Hao Vo, Khoa Vo, Thinh Phan, Ngo Xuan Cuong, Gianfranco Doretto, Hien Nguyen, Anh Nguyen, and Ngan Le*  
IEEE/CVF Conference on Computer Vision and Pattern Recognition (**CVPR 2026**)  
**Keywords:** Camera-only 3D object detection, long-tailed recognition, expert distillation, autonomous driving.
3. **Contrastive Point Feature Matching for Open-World Object Counting**  
*Ngo Xuan Cuong*  
British Machine Vision Conference (**BMVC 2025**)  
**Keywords:** Open-world object counting, feature matching, contrastive learning, spatial grounding.
4. **Distribution-Guided Object Counting with Optimal Transport**  
*Ngo Xuan Cuong and Tien-Dung Mai*  
International Symposium on Information and Communication Technology (**SOICT 2024**)  
**Keywords:** Object counting, optimal transport, distribution alignment.

## WORKSHOP PAPERS

---

1. **SCOPE: Self-Consistent Patch Reconstruction with Pathology-Aware Prototype Alignment for Anatomical Neglect in CXR Report Generation**  
*Ngo Xuan Cuong*  
MMFM-BIOMED Workshop, **CVPR 2026**  
**Keywords:** Radiology report generation, chest X-ray, anatomical grounding.

## RESEARCH EXPERIENCE

---

### University of Arkansas

*Graduate Research Assistant*

- **Advisor:** Prof. Ngan Le
- **Research Topics:** Vision-language models, uncertainty quantification, robotics.

Fayetteville, AR

*Aug. 2025 – Present*

University of Information Technology, VNU-HCM

Undergraduate Research Assistant

Ho Chi Minh City, Vietnam

Aug. 2023 – May 2025

- **Advisor:** Dr. Tien Dung Mai
- **Research Topics:** Vision-Language Model, optimal transport.

INDUSTRY EXPERIENCE

---

**Viettel Group**

AI Engineer Intern

Ho Chi Minh City, Vietnam

May 2025 – Aug. 2025

- **Focus:** 3D reconstruction for virtual reality; video retrieval for television services.

**Bosch Global Software Technologies**

AI Engineer Intern

Ho Chi Minh City, Vietnam

Jul. 2024 – Jan. 2025

- **Focus:** LLM agents and VLA models for robotic-arm-based automated product testing.

HONORS AND AWARDS

---

**CVPR 2026 Broadening Participation Scholarship**

IEEE/CVF Conference on Computer Vision and Pattern Recognition

2026

**Excellent Academic Scholarship**

University of Information Technology, VNU-HCM

Four-time Recipient

2021 – 2025

TECHNICAL SKILLS

---

**Languages:** Python, C/C++, SQL

**Frameworks:** PyTorch, HuggingFace Transformers, OpenCLIP, FastAPI

**Topics:** Vision–Language Models, Computer Vision, NLP, Machine Learning, Responsible AI,

**Tools:** Git, Docker, Linux, VS Code
